W. H. Sharpnack Charged with Embess'ement by R. H. Hall of Modale.

CLAIMS HIS ARREST IS SPITE WORK

Said to Have Negotiated Paper Which He Had no Interest or Authority to Conver.

W. H. Sharpnack, a commission man of this city, was arrested Tuesday evening on the charge of embezzling \$61, preferred by R. H. Hall of Mcdale. The trouble grew out of a sale of agricultural implements made by Sharpnack to Hall some time ago. Sharpnack took notes from Hall, secured by a mortgage on some corn. He put the notes up with David Bradley & Co. as collateral, and Hall sold the corn and paid off the notes as fast as he obtained the moncy, taking Sharpnack's receipts for the amounts paid. How it happened Sharpnack claims not to know, but the notes got into the hands of John A. Berry of Logan for collec-

Upon being notified Hall commenced the criminal action already referred to, and Sharpmack waz taken to Harrison county to be arraigned. He was released on bonds and returned to this city yesterday. He claims that the arrest is simply a piece of spite work on Hall's part. When he lived at Modale he caused the arrest of four brothersin-law of Hall for stealing hogs. When Hall heard of the note being in Berry's hands he is said to have remarked that this was good time to get even for the hog deal. thurphack was at one time a member of the legislature from Harrison county, and enjoys the confidence of his business associates.

Wants Feely's Property. M. Feely and wife, who live in Norwall township, are defendants in a suit commenced in the district court yesterday by Frank Nugo Salvador, who describes him self as having been, at the time he crosse the ocean in 1884 and took up his abode with Mr. and Mrs. Feely, a green, ignorant Italian, unacquainted with life and customs in this country. They compelled him to do the hardest kind of work all day, and most of the night, he says, and to sleep in barns and sheds, without having clothing enough to keep him comfortable. They agreed with him in 1884 that if he would stay with then and work until he should become 21 years of age, which would be six years, they would give him at the end of that time a team, wagon, harness and eighty acres of land.

In 1890, instead of giving him these things they chose, as their contract provided they might, to give him \$1,600 in cash. During the next two years, however, they did not pay him more than \$300 of that amount. In 1892 a further agreement was entered into whereby he was to work for them until 1895, and receive as payment a deed to all the land they owned in Norwalk township outh of the railway tracks. Now the time has elapsed, and none of these contracts have been fulfilled. Salvador claims his services during the first six years were worth \$19.70 per month, or \$2.600 in all, and he wants a judgment for that amount, together with \$600 which he claims is coming to him as wages for the last three years. It is claimed that Feely and his wife have deeded all their

property to a daughter, Mrs. Saunders. Another Sunday Excursion. Next Sunday there will be another exursion train of visitors who will come into Council Bluffs over the Burlington, the special train starting from Cameron Junction at 6:20 a. m. and reaching this city about noon, and returning at night, Special attractions have been arranged at the fair grounds and the beaches, and preparation are being made for a great day. Abused by His Son Edward Hermes, an old man who lives

river, called at Justice Vien's office yesterday and told a pitiful story of the abuse to which he had been subjected by his son, Frank Hermes, and his housekeeper, Clara Cozad. According to the story he told, the younger Hermes and the Cozad girl, who is years of age and rather good have been living together as man and wife although they never went to the trouble and expense of procuring a marriage certificate. The old man objected to this sort of procedure in his own house, and was promptly sat upon by the young people. How long things had gone on in this way he did not know, but he claims they have been living together three months to his knowledge. How hard the sitting down process was is shown by a big gash on his left wrist, made, he claims, by a knife in the hands of but no serious injury done to crops, his son, and by long, deep scratches about his throat, where, he says, the undutiful young man choked him. He filed two in-formations, in one of which he charges both his son and the latter's alleged paramour with conspiracy to injure his person, and in the other he accuses his son of assaulting him with intent to commit great bodily injury, by cutting and choking him. Both the accused were released on their own recognizance, to appear on the 18th for a preliminary hearing.

Let a l'apari ig Contract. A long and tedious meeting of the school board was held in J. J. Stewart's office last evening, an hour and a quarter being taken up with the opening of blds and the letting of a contract for doing \$140 worth of papering and painting at the Bloomer school building. There were eleven bids in the hands of Dr. Robertson of the committee on buildings and grounds. These were opened and read in a very painstaking fashion, and it was found that they varied all the way from \$115 to \$250 for painting and papering the first floor of the building. Bloss Bros finally awarded the contract at \$115, and the further sum of \$25 was allowed them for washing the walls and ceiling before putting on the sizing.

Dr. Robertson was given authority to make a contract with J. W. Squire for a reduced rental rate during the summer vacation for his buildings, which are now being used as

Claims Millard Was Unduly Influenced.

Kate Payne has started proceedings against the heirs of R. S. Millard, better known as "Spell" Millard, to recover her interest a decree ordering the sale of the Chicago in the estate of the deceased. In her petition, which was filed in the district court from date of publication. The sale is made yesterday, she alleges that in April, 1893, he under foreclosure of mortgages held by the bequeathed all his estate to her and Frank Mercantile, Trust, Central Trust and Metro-Letner, During Millard's last illness he be-

came very weak, and his extreme old age rendered him insone. While in this condi-tion, she says, Otis Lotner and his wife, Luzzie, brought undue influences to bear upon him, and in July, 1894, he executed what purports to be a warranty deed transferring all of his property to Lizzle and Frunk Letner. He died two months after the deed was executed. The Letners have taken possession of the property by virtue of this deed, and refuse to allow her any share of it. She asks the court to set aside the deed on the ground of his being not in a deed, on the ground of his being not in a fit mental condition to make a valid transfer, and to give her a half interest in the estate, as provided in the will.

TROUBLES ARE INCREASING

Western Roads Agitated Over the Teachers' Convention and Eastern Lines at War Over the Christian Endeavor Tickets,

CHICAGO, July 10 .- More complications have arisen over the sale of Christian Endeavor tickets by the Erie road, and this time they are of a nature to threaten the regular traffic rates between Chicago and New York. The Erle, having in some manner run out of the regular Christian Endeavor tickets, sold about 750 tickets of another form to people asking for excursion tickets, and quite a number of them found their way into the hands of brokers, the latter part of the transaction, however, through no fault of the Eric people. The brokers, who have for several days been using every pretext to break the market were not at all slow in letting it be known that they had become possessed of the Erie tickets, and immediately a storm rose. Vice Chairman Donald of the Central Traffic association was at once overwhelmed with protests against the action of the Eric, and question. A few genuine Quickmeal 1895 gasoline stoves at very low prices. Just when needed, alluminum fruit kettles. Graniteware very cheap. Get an Old Doctor lee pick. Best in the world. Cole & Cole, the same excursion rates as were used by the Erie. He granted the demands, as he was bound to do, and now for two days all the eastern roads out of Chicago are prepared to sell tickets at the same price as asked for the excursion tickets to the Chris-

tian Endeavor convention. The Eric people claimed that the sale of the tickets was an error, and as soon as it was learned that many tickets had been sold they made every effort to recover the tickets from the scalpers. The western roads are becoming some

what uneasy over the repeated reports that the return portions of teachers' tickets are finding their way into the hands of brokers, and that eastbound rates are threatened. There seems, however, to be nore smoke than fire about the matter The brokers are unquestionably getting hold of a number of tickets, but not in a sufficient number up to date to be able to create any demoralization in rates. The Railway Age, in its next issue, will say upon the subject of railway receiver-ships and the foreclosures in 1893: A year ago, on June 30, 1894, receivers were operating 155 railways in this country, representing about 39,000 miles of lines and \$2,500,000,000 of capitalization—that is, about 25 per cent of the then existing mileage and about 25 per cent of the combined capital stock and bonds. Within the last

capital stock and bonds. Within the last twelve months forty-five roads, representing 6,723 miles of lines and \$343,000,000 capitalization, have been released from the hands of the courts by foreclosure gale, reducing the number in receivers' hands to 136, although the mileage and capitalization are not very much less than a year ago, owing to the slow work of reorganization of the few lines who own the aggregate,

CHARGE FRAUD IN THE FORECLOSURE Sensational Allegations in a Cross Bill in the Duinth and Winnipeg tase.

DULUTH, July 10 .- A sensational cross bill and answer in the suit brought to fore close the \$2,000,000 bond issue on the Duluth & Winnipeg railway by the Guarantee Trust and Safe Deposit company of Pennsylvania was filed in the federal court here today by John C. Hunter, W. W. Spalding and H. M. Peyton, Duluth citizens; Senator C. K. Davis of St. Paul and the estate of the late A. J. Sawyer of Minneapolis, who want the claim of the Pennsylvania concern declared void and the receiver, W. F. Fitch, who was put in charge at the instance of the cific, supplanted by a disinterested party and the property sold to satisfy just claims of the creditors of the company. The intervenors state that the North Star Construction company, one of the defendants in the suit made an answer that was merely a pre-tense, and that it admitted nearly everything claimed by the plaintiff, particularly in order further the scheme of foreclosing in favo of the Canadian Pacific, in whose contro the road has been ever since January, 1893. The intervenors claim their stock in the road is worth \$123,000, and if the foreclosure goes through they will be frozen out. They further show that the sale of the road was ordered by Judge Nelson last January, I ordance with an agreement between the plaintiff and the pretended defendants. The claimants state that the bonds to secure the mortgage were issued in excess of the amount authorized by law, and that they were therefore void; that the 100 miles of road already built cost considerably less than \$1,500,000, yet bonds and stock were issued to the extent of \$4,500,000, and that Sir W. C. Van Horne secured a controlling in terest by promising to complete the road, which he never did or tried to do, and that he caused the road to be mismanaged for the benefit of one of his companies, the Duluth, South Shore & Atlantic, a Canadian Pacific corporation.

Underhanded Kate Cutting. CHICAGO, July 10 .- The eastern roads ar now blaming the action of the passenger department of the Trunk Line association for the chance that they claim it gave to the Erie road to demoralize the business to and from the Christian Endeavor convention. It is claimed that no provision was made for the appointment of a joint agent or the certhe appointment of a joint agent or the cer-tification of tickets until after the brokers had been given ample opportunity to stock up with the tickets in a liberal fashion. The Eric discovered that a good deal of underhanded manipulation was going on and took measures to meet the action of its competitors in such a way that the lion's share of the business would come to the Erie. This, they thought, was a better way of doing than to make an outery against their competitors, which would only come up for hearing long after the business was out of the market. The outlook now is that the holders of tickets will have no trouble in having them honored. no matter how late the time set for the re

DRAKE ON THE SIXTH BALLOT Central

(Continued from First Page.) pledged. It is a farcical protense for the democratic party to claim credit now for a measure from which nine months ago its president withheld his approval and denounced as a humiliating abandonment of their cardinal principles. The senate bill, substituted for the Wilson bill, is not a measure which the republican party would father. It reduces the revenue upon the inxuries, a method of ievy more effective than any income tax; it restores taxation to sugar, a necessity in every home; it reduces the wage rate in many industries in which labor is the chief element of cost; but it maintains in many of its parts the principles which the democratic party declares to be unconstitutional. To claim credit under it is to claim credit for abandoning its own policy and adopting the principle which it has denounced.

The people are friendly, the climate delightful and healthy; railroad facilities first-class, and the whole country. ON THE CURRENCY QUESTIONA The platform further deplores the revo-cation of reciprocity, denounces the tariff for revenue only and declares for American On currency the platform says: wages. On currency the platform says:

We affirm the declaration of the republican national platform of 1822, adopted at Minneapolis, that "the American people, from tradition and interest, favor bimetalism, and the republican party demands the use of both gold and silver as standard money, with such restriction and under such provisions, to be determined by legislation, as will secure the maintenance of the parity of the two metals, that the purchasing and the debt-paying power of the dollar, whether of silver, gold or paper, shall be at all times equal. The interest of the producers of the country, its farmers and the workingmen, demands that every dollar, paper or coin, issued by the government shall be as good as any other." urge that the United States exer-

We urge that the United States exert is influence to establish with the important commercial nations of the world such a international agreement as will enable his country to reopen its mints to the cee and unlimited coinage of both metals ithout loss of one or the other from the olume of our money. The platform favors restriction of imm

gration and pensions for all honorably dis-charged union soldiers, and closes with the following endorsement of Senator Allison; ENDORSEMENT OF ALLISON.

ENDORSEMENT OF ALLISON. We congratulate the people upon the fact that the state of Iowa will be represented in the Fifty-fourth congress by two senators and eleven representatives, who are zealous and fearless advocates of republican principles, and whose services in the past we heartily commend. With expecial pride do we remember the distinguished services of our senior senator, whose long and honorable record as a servant of the state entitles him to expressions of our full confidence and our unending affection. We hall with satisfaction the universal desire of the republican party of the state to continue him in his present field of usefulness until called to the larger services of the nation.

ANXIOUS FOR A DISCUSSION, foint Debate with 'ound Currency Me. Proposed.

WASHINGTON, July 10 .- A. J. Warner resident of the American Bimetallic league has written a letter to Hon. Charles S. Fairchild, chairman of the committee on sound currency of the Reform club, New York, in which he says: "The Bimetallic league re spectfully invites the committee on sound currency to a discussion of the money quesion on distinctive propositions to be agreed upon and to be carried on by questions and answers. I would suggest that not more than five nor less than three on a side be selected to conduct the discussion, the discussion to be held at such time and place as may be agreed upon. Should this suggestion meet your approval I would suggest an early meeting to agree upon the proposition to be discussed and the regulations under which the discussion shall be conducted."

Outlaw Riddled with Bullets. MEMPHIS, July 10 .- William Walker, oted desperado who has been robbing and errorizing the people of his own race in he Fourth district of his county, has been killed by William Walton, a member of a osse which had besieged Walker in his own ouse. Walker made a break into the yard armed with a Winchester rifle, and ordered the posse to clear out. Walton fired on him and other members of the posse followed his example. Walker was riddled with bullets.
